

You Are the One

VAST

Your hair reminds me of heaven
And your eyes take me from this hell
Bring me closer to your soul tonight
You are the one

Your lips make me feel like I am dying
And your touch makes me feel like I'm a child
Bring me closer to your soul tonight
You are the one

Your hair reminds me of heaven
And your eyes take me from this hell
Bring me closer to your soul tonight
You are the one
