

## Get To You

Vaya Con Dios

Boy, you know I heard you talking in your sleep  
If I only knew you better  
I'd chase away the demons from your dreams  
Make them disappear forever

I wanna get to you  
I'm gonna find a way  
I wanna get to you  
'Cos I care for you  
I care for you  
I wanna get to you  
Every night I pray  
I wanna get to you  
'Cos I care for you  
I really do

In your arms when you're lying next to me  
There's so much we can discover  
If you put your trust in me you'll see  
I will love you like no other

Ain't nobody gonna take me away from you  
Ain't nobody gonna take me away (2x)

I can feel the pain in you goes deep  
Don't pretend it doesn't matter  
I'm not afraid to face reality  
Let us walk that road together

Ain't nobody gonna take me away from you  
Ain't nobody gonna take me away (2x)
