

What Will Come Of This?

Vaya Con Dios

I want you to hold me near but when we kiss my heart goes just
straight to ??? on my lips and why I close my eyes sometimes I
wish I could be us in a way that I miss

I don't like the sunshine, no I like the kind of mist that wrap
s up by love When it all goes adrift

And faster we will go And further we will go And deeper we will
go Whatever comes of this I love you more and more I want it m
ore and more It cant be like before What will come of this

I take what can not be mine I can't resist Like a piece of your
soul that I hold in my fist

And faster we will go And further we will go And deeper we will
go Whatever comes of this I love you more and more I want it m
ore and more It cant be like before What will come of this
