

Hallelujah

Vega 4

When the show is over
And all is said and done
When the picture turns to static
The station has closed

Hallelujah, hallelujah
It was all worthwhile, oh love
Hallelujah, hallelujah
I had the time of my life

When the final scene has faded
On my starring role
I'll be thinking of you
The song will play on

Hallelujah, hallelujah
It was all worthwhile, oh love
Hallelujah, hallelujah
I had the time of my life

Hallelujah, hallelujah
It was all worthwhile, oh love
Hallelujah, hallelujah
I had the time of my life

I can see the world from here
