

Radio Song

Vega 4

The radio is playing songs that we both love
and it's all we have
i get the feeling that i'm on your tv show
i forgot my lines again
i sold a corner of my soul
but instant karma's gonna get me back i know

this kills me
cause when another good thing comes along
we'll both be lying wasted in the corner
its over and you're gone

the radio is playing songs that we both love
and its all we have
i sort of get the feeling i'm your tv host
i forgot my lines again

i sold a corner of my soul
but instant karma's gonna get me back i know

this kills me
cause when another good thing comes along
we'll both be lying wasted in the corner
its over and you're gone x3
