

I don't wonder why  
the world is like a sea  
that i've been swimming in  
and how long can i hold  
without breathing in  
i just need to fly  
like im a shooting star  
see the world and the way we are  
and how long can i last without breathing out

and i will sing for all the people  
that i feel love  
and i will sing for all the people  
that i feel

i don't want it all  
just most of everything  
i want to soar on a street kids dream  
and how much can i take without caving in

and i will sing for all the people  
that i feel love  
i will sing for the people  
that i feel

i just want to fly  
like im a satellite  
see the world and the way i am  
we can sing our songs across the sons of god  
for the crowd and the ego sin

and i will sing out  
i will sing out  
i will sing for all the people now i sing love  
i will sing for all the people that i feel
