

Vicious Circles

Veil of Maya

Messenger, when have you seen my face?
I will become - become like the wind
A tyrant in disguise
A muse upon our eyes

A rare extermination, no stop to extinction

When have you seen my face?
I will reform - reform like the storm
No stop to my spreading
Unarmed die around me

Enter vicious circles
Feel it close upon you
You feel it consume us all us
Our honor is out the window for tonight
Choke on leverage
You feel it consume us all us
Our honor is out the window for tonight for tonight for tonight
When have you seen my face?
I will become, become like the stone
So strong to my standings
My skin cold and lonely

Feelings will mean nothing
I laugh at their coming

I'd taunt what they'd die for [2x]

When you find yourself in that room not alone, you are surrounded

You will collide with your thoughts
Brand yourself a natural inside you know it [2x]

No one will save you today (save you today)
This is a fight for your pride [2x]
