

## With Passion and Power

### Veil of Maya

This is a war  
And attack on us all

We all let it slide as our  
Morals burn in it's wake

We all fly  
Until the day that it strikes you.  
Leaves you broken inside  
This is a war  
And attack on us all  
How could this be  
Happening? We were like  
Brothers

I won't forget you,  
Keep you with me [2x]

When the smoke clears  
Our life's total appears

We will map everything,  
Structure all of the Lines

When the smoke clears  
Our life's total appears

You were a king to us all,  
Gentle giant of the land

When you have life in  
Your hands[2x]

Hold it tight  
Grasp it with strong  
Demand [2x]

Mount this earth and excel  
With Passion and Power [2x].

Hold it tight  
Grasp it with strong  
Demand [2x]

When the smoke clears  
Our life's total appears  
We will map everything,  
Structure all of the Lines  
When the smoke clears  
Our life's total appears  
You were a king to us all,  
Gentle giant of the land  
How could this be  
Happening? We were like  
Brothers  
I won't forget you,  
Keep you with me

When the smoke clears  
Our life's total appears  
We will map everything,
