

## My Forgotten Favorite

Velocity Girl

please say you'll stay  
If I told you once I told you  
twice never ever to believe a word I say  
your the only one  
that makes me feel this way  
and when you said I couldn't see  
you told everything but the truth  
could it be all that bad  
to forget about my favorite thing  
I know you  
I'm on my last leg  
running when I  
can barely walk  
and when you said I couldn't see  
you told everything but the truth  
could it be all that bad  
to forget about my favorite thing  
i know you  
You know all I want to do  
is live my life  
and forget about you  
and when you said I couldn't see  
you told everything but the truth  
could it be all that bad  
to forget about my favorite thing  
I know you  
I know you  
I know you
