

## Sucker Train Blues

Velvet Revolver

Hands are shakin got your finger on the trigger  
Jesus ain't complainin gonna figure it out  
Somebody raped my tapeworm abortion  
Come on motherfuckers and deliver the cow

Brain and body melting while there's roaches multiplying  
It's the alien infection it's the coming of Christ  
All these sentimental halos and these consequential angels  
When I'm runnin with the devil don't deliver the fight

Don't look at me now  
Fell too fast your wings won't hold  
Don't look at me now  
Fell too fast your wings won't hold

Yeah and when I want to  
Yeah I will find you  
Yeah and when I want to  
Yeah I will blind you

Brains are frying while the kings and queens are dying  
Satan won the race and the miracle mile  
Somebody raped my tapeworm abortion  
Come on mothertuckers and deliver the cow  
It's all over me now  
Let me go, let me go, let me go  
What's come over me now  
Let me go, let me go, let me go  
It's all over me now  
Let me go, let me go, let me go  
What's come over me now

Johnny sat down beside the old oak tree  
Cut off his hand what did he see  
All of the animals are dead  
The rats have crawled through his house and out through their head  
One of them ate a hole in the sky  
To believe this would be a fate worse than dying
