

Take My Body Close

Velvet

Take my body close
When the feeling is right
Take my body close to the dancefloor
I feel strong

I've got this feeling we belong to the night
I'm rising up got my feet back on the ground again
I've got this feeling I could reach for the sky
I felt your touch and I wanna dance the night away
I'm here to stay

Everytime I hear your heartbeat I will comfort you
Comfort you

Take my body close to the dancefloor I feel strong
And I can't get enough
When the feeling is right hold tight I just go on
And I can't get enough
Take my body close to the dancefloor I feel strong

You've got me dreaming got me going good
Making me do the things I never ever thought I would
You've got me dreaming got me walking on air
To hell and back all around the world 'cause I don't care
I'll take you there

Everytime I hear your heartbeat I will comfort you
Comfort you

Take my body close to the dancefloor I feel strong
And I can't get enough
When the feeling is right hold tight I just go on

Take my body close to the dancefloor I feel strong
And I can't get enough
When the feeling is right hold tight I just go on

Take my body close
When the feeling is right
I just go on
Take my body close

Everytime I hear your heartbeat I will comfort you
Comfort you

Take my body close to the dancefloor I feel strong
And I can't get enough
When the feeling is right hold tight I just go on

Take my body close to the dancefloor I feel strong
And I can't get enough
When the feeling is right hold tight I just go on

Take my body close to the dancefloor I feel strong
And I can't get enough
When the feeling is right hold tight I just go on
