

Victorious

Velvet

Love is a battlefield without a bulletproof heart
Your mind is your enemy, you're falling apart
Trust me, just put your faith in me
We'll make it through, I'm with you

We're gonna stand on the line
We're gonna be victorious
There ain't no stopping us now
'Cause tonight we're glorious
Ain't it obvious, it's obvious, it's up to us
We're gonna stand on the line
We're gonna be victorious

Love is a butterfly that longs to be free
My heart is an open book, will you cover me?
I trust you and I put my faith in you
Ooh-ooh-ooh
Stay with me, and you will see

We're gonna stand on the line
We're gonna be victorious
There ain't no stopping us now
'Cause tonight we're glorious
Ain't it obvious, it's obvious, it's up to us
We're gonna stand on the line
We're gonna be victorious

There's nowhere in this world I'd rather be than here with you
tonight
Tonight

We're gonna stand on the line
We're gonna be victorious
There ain't no stopping us now
'Cause tonight we're glorious
Ain't it obvious, it's obvious, it's up to us
We're gonna stand on the line
We're gonna be victorious
Victorious
