

# The Body And The Blood

Vendetta Red

Angel insomnia,  
My eyes weep worms for you  
Angel anathema,  
I'll drink your blood  
The blood you shed for me  
Was all you gave to me  
My bold bulimic belly dancer  
Narcissistic necromancer  
Run, just run from me  
As day consumes the night,  
The earth shall cover me  
Medusa Madonna,  
Murder me, marry me  
The blood you shed for me  
Was all you gave to me  
My bold bulimic belly dancer  
Narcissistic necromancer  
Run, just run from me  
Under your vapid vulture's wings  
I'll suckle your black milk  
Let it trickle down my tongue  
Your womb-mouth kiss could kill  
As day consumes the night  
I'll drink your blood  
The blood you shed for me  
Was all you gave to me  
My cold kinetic claws of cancer  
Narcissistic necromancer  
Run, just run from me  
This time all riots,  
I'm ready  
This time all riots,  
I'm ready to go
