

# Black Wind, Fire & Steel

Venerea

Full moon's light is calling me  
My kingdom lies within  
The mystic soul and lion's heart  
Brought by the talisman  
The ecstasy of battle takes me  
Where the falcons fly  
Immortal youth was granted me  
I will never die

Born of black wind, fire & steel  
Born of black wind, fire & steel  
Born to teach them all to heal  
Born of black wind, fire & steel

Pounded by the hammers  
Of the giants of the world  
I can see in darkness  
I'm the overlord  
Single combat I await  
My shadow brings them fear  
The spikes upon my chariot  
Will grind them when they're near

In my head, in my head, zombie, zombie  
In my head, in my head, zombie, zombie

I am an outcast  
On the path of no return  
Punisher and swordsman  
I was born to burn  
Black wind always follows  
Where my black horse rides  
Fire's in my soul  
Steel is on my side
