

Just A Minute

Venke Knutson

The sun blinds my eyes
And I can not see a thing
The same thing I feel
When I look at you

The moon makes a shadow
And I wish it could be you
As I walk around wondering why
Why you left without saying goodbye

It would take me by the minute baby
To pack my bags and leave this place here
Never to come back again
There's never been a doubt about it
Just about a minute baby
Pack my bags and leave this place here
Only to see your face
I'm longing every day

A picture of you
Everytime I close my eyes
Brightens my day
You've got the sweetest touch

When morning awakes
I'm alive and feeling new
And I realise I miss you so much

It would take me by the minute baby
To pack my bags and leave this place here
Never to come back again
There's never been a doubt about it
Just about a minute baby
Pack my bags and leave this place here
Only to see your face
I'm longing every day

Feels like I'm tumbling down a hill
Feels like I just cant keep still
And nobody's gonna stop me
While I'm just about to say
Ask me to stay

Just one minute baby
I'll leave this place here
Never to come back again

It would take me by the minute baby
To pack my bags and leave this place here
Never to come back again
There's never been a doubt about it
Just about a minute baby
I'll pack my bags and leave this place here
Only to see your face
I'm longing every day

And nobody's gonna stop me

While I'm just about to say
Ask me to stay

And nobody's gonna stop me
While I'm just about to say
Ask me to stay

In just about a minute baby
I'll pack my bags and leave this place
Only to see your face
