

Angel Dust

Venom

Living
Running
Out on the streets at night
Searching
Hoping
For the right connection, 'cause
I Need it, want it
You know I've got to have it
Takes me higher than anything I know
Angel dust
Need a shot to see me through the day
Angel dust
Want a lot I've got to get away
I live my life
Like there's no tomorrow
Take no
Chances
I'm drowning all my sorrows 'cause
I Need it, want it
You know I've got to have it
Takes me higher than anything I know
Laughing
Crying
Every night and day
I know
You know
That I'm a different man because I
Need it, want it
You know I've got to have it
Takes me higher than anything I know
