

Even in Heaven

Venom

Led by a sacred feeling in my heart
I have left my evil ways to restart
Now i heard Eden call
I must try not to fall
All is good in heaven
But i want more
Am i stripped of evilness to the core
Now i hear the darkness say
Rise my son and do your work
Make them pay!
Even in heaven there's hell
Even in heaven
Brought by the holy son
Welcomed and blessed inside
Now that the dead's begun
Kneel o me or die,ha,ha,ha,ha
When the war is over
as it's just begun
Wehn your god has fallen
And Satan's work is done
I will sit at
his strong left side
with my head held high
and a wreath of pride
