

Fire

Venom

Take my hand and we'll be one
You'll belong to the hellion
It's a chance in a million
Don't be scared on our way down
Black your tears dry on me
Friend or foe or liar
Fire - In hell fire - Fire
Hear my tale and walk with me
Answer not to oblivion
Ask your stars your destiny
Shining down on Marillion
Red your eyes look for me
Scream the demon's choir
Don't believe you're a warrior
Search your soul for we're the same
Let me kick your mind insane
Give your services to me
Hell's my unholy abattoir
Burning feeds my buyers
Fire - Fire - Burning in fire - Fire - Hell fire
