

## Into the Fire

Venom

Sleepless nights drenched in sweat  
A lust for life, endless death  
We're dancing in the fire, we're lost in the flame  
We're lost in the fire, nothing stays the same  
Into the fire  
Into the fire  
Day to night, night to day  
Lost in dreams that fade away  
Into the fire, we're dancing in the flame  
We're lost in the fire, well nothing stays the same  
Into the fire  
Into the fire  
In the night, alone and dark  
Deep within the source,  
Tortured feel the flames of Hell  
Rising to the cause  
One, two, three, four  
All my life, drenched in pain  
All my needs, all the same  
We're dancing in the fire, we're lost in the flame  
Dancing in the fire, well nothing stays the same  
Into the fire  
Into the fire  
Into the fire  
Into the fire
