

Into the Fire

Venom

Sleepless nights drenched in sweat
A lust for life, endless death
We're dancing in the fire, we're lost in the flame
We're lost in the fire, nothing stays the same
Into the fire
Into the fire
Day to night, night to day
Lost in dreams that fade away
Into the fire, we're dancing in the flame
We're lost in the fire, well nothing stays the same
Into the fire
Into the fire
In the night, alone and dark
Deep within the source,
Tortured feel the flames of Hell
Rising to the cause
One, two, three, four
All my life, drenched in pain
All my needs, all the same
We're dancing in the fire, we're lost in the flame
Dancing in the fire, well nothing stays the same
Into the fire
Into the fire
Into the fire
Into the fire
