

Moonshine

Venom

Moonshine
Taste her feel her
Rising the west
Hear the slack tormentor
She's the best
Warm me cool me
You can take me day or night
Be my inventor
I won't fight
Moonshine
Forever I'm enchained
Moonshine
I can't think but crave
Buy her, breed her
Seeping though your skin
Don't call no doctor
She'll always win
Anxious women
Stareing at your soul
She saw you coming
Young or old
Moonshine
She commands the waves
Moonshine
Forever I'm her slave
Bleed her, breed her
She's yours to take
Cross the palm with silver
She'll awake
Fire, water
Goddess of men
Take a drink of thunder
And she'll say when
Moonshine
Foverer I'm enchained
Moonshine
Forever I'm her slave
Moonshine
Moonshine
Moonshine
Moonshine
