

Parasite

Venom

There was a time when hunger was mine, you'd walk the line.
You sowed the seed, your making us need, your watching us bleed,
you bastard!
We always felt you were a better friend, with your riches and your smiles,
You helped me keep the wolves from the door,
You filled our heads so full of, Lies!
We always felt you were a better friend, with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of, Lies!
Parasite!
Parasite!
Life was a ball and you took it all,
We took a fall,
You were the doubt
You won't bail us out, there's no use to shout, Your dying!
We always felt you were a better friend, with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of, Lies!
We always felt you were a better friend, with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of, Lies!
Parasite!
A toffee for the kiddies, sugar and spice,
Just wait a minute fella, your anything but nice!
We always felt you were a better friend, with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of, Lies,
Parasite!
Parasite!
Parasite!
Parasite!
