

Punk's Not Dead

Venom

Don't take no shit, stand up, make it
Don't let them get you down
Love it, hate it, fuck it, fake it
But you will never drown
You take 'em all to hell and back
Punk's not dead, punk's not dead
Roll it, taste it, suck it, chase it
Taking it like a man
Smoke it, blaze it, drink it, waste it
Do anything you can
Punk's not dead, it never died
You can't kill a way of life
It don't matter about your age
It's how you feel it's not a phase
Sign it, seal it, find it, deal it
Setting the price decreed
Break it, fix it, raise it, sink it
Planting the demon seed
Destroy
