

## Patterns

Vera Blue

I met you in a dark dark place  
I met you down there  
I've lived a long long time  
But I hadn't seen your face before

We stood in the shadow of a corner  
Hidden in our lives  
One day we walked away  
Into the light

We buried what was left of this  
Repetition in the deep  
Shaping the way we feel, the earth move

I'll cherish every single second  
And I'll never close my eyes  
One day we walked away, into the light

Slowly shedding the weight that was always controlling my mind  
Stealing the light that was closing my eyes

I met you in a dark dark place  
I met you down there  
Broken my chimes like nobody else could

One day we walked away  
One day we walked away

Slowly shedding the weight that was always controlling my mind  
Stealing the light that was closing my eyes

Never  
Never oh  
Never  
Never oh  
Never  
Never oh  
Never  
Never oh  
Never  
Never oh  
Never oh  
Never oh  
Never  
Never oh
