

I Say So

Verbena

Seems like its been days and nothings left for me
Right now
I can walk around and see between the trees
Oh how
See that's not the way I want it
Well now
I will see if you will be and we can call if its me
Right now
Its never really gonna be that much better
'Cause I say so wow
'Cause I say so
We can try and we can see to make it all better
'Cause I say so wow
'Cause I say so
'Cause I say so wow
'Cause I say so
'Cause I say so wow
Seems like its been years and nothings left but me
Right now
I can rescue you and you can rescue me
Right now
See that's just the way I want it
Well now
You will be and I will be 'cause we can call if its me
Right now
Its never really gonna be that much better
'Cause I say so wow
'Cause I say so
We can try and we can see to make it all better
'Cause I say so wow
'Cause I say so
And I can see and you can see that we can make it better
'Cause I say so wow
'Cause I say so
'Cause its never really gonna be that much better
'Cause I say so wow
'Cause I say so
'Cause I say so wow
'Cause I say so
Even when the moneys gone
I want to
I might just come back as stone
And hold on to nothing
Even when the moneys gone
I want to
I might just come back as stone
And hold on to nothing

(my guess is that stands for pilot park)
Cold winter stands
Away from my heart
Shining the wheels
Wind up at the start
Lets have the race
I'll win for sure
Go grab your cane
And wait at the door

Its a hard show
Fifteen miles down under
Its a hard show
Hey hey hey
Its a hard show
Fifteen miles down under
Its a hard show
Hey hey yeah
Why don't we run
Down to pilot park
Play in the shade
Afraid of the dark
Switching my turns
You know you make me so free
Cut off my shoes
I'll stand on my knees
Its a hard show
Fifteen miles down under
Its a hard show
Hey hey hey
Its a hard show
Fifteen miles down under
Its a hard show
Hey hey hey yeah yeah
Don't you ever take the ones you love
Don't you ever take the ones you love
Its a hard show
Fifteen miles down under
Its a hard show
Hey hey hey
Its a hard show
Hey hey yeah
