

where is it? (spoken)  
its the only clue  
when youre sad and through  
where you ? like you know your faith  
on the coldest of days  
cause i need it too  
like some kind of fool  
its the song ?  
on this green room ?  
boys sing girls cry to watch the animals fallin in line  
the sun makes the mood die  
to watch the animals fallin in line  
they just keep fallin in line

and the streets are cool ?  
several theft is soon ?  
purse your lips and whistle to the wind ?  
looking like ?  
boys its you who knew ?  
thought your church was school  
dust your feet youre welcome to our house  
take off youre top hat ?  
the boys sing  
the girls cry  
to watch the animals fallin in line  
the sun makes the mood die  
to watch the animals fallin in line  
remember the days  
where your friends are naked and strange (X4)
