

Go
Fit the pieces back together
Make it whole
Cause there is something I've been missing
Take control
Weave a halo round my head
To make it holy
So make it neat
Cut the edges
And sew me up at the seams
Exhale with expectations
Til you try to leave

I love to watch the colors fade around me
Fade to black and grey
Darling, make me feel at home
Cause every piece of you surrounds me
Keep it on display
Darling, make me want to stay

So you can go
Wait for divine intervention
To soothe your soul
In this waiting game we're playing
Should've known by now

I love to watch the colors fade around me
Fade to black and grey
Darling, make me feel at home
Cause every piece of you surrounds me
Keep it on display
Make me feel at home
Make me feel at home

I love to watch the colors fade around me
Fade to black and grey
Darling, make me feel at home
Cause every piece of you surrounds me
Keep it on display
Darling make me feel at home
Make me feel at home
