

Constant Crush

Vérité

Loose words and prepositions
lead me to where you lie
Give me a proposition
and I'll let you waste my time
Some shelter we've been given
from all the shit outside
So I'll conjure up an image
Let it distract a while

Take me home and watch me give it up
Chase some young ideas that I've dreamt up

Constant crush
It's always got a hold on, hold on me It's in my blood
Always got a hold on, hold on me
It's in my blood

Under the complication
I'll keep closing my eyes
Lower my expectations
so I can sleep at night

Take me home and
watch me give you up
Chase some idealism
I've dreamt up

Constant crush
It's always got a hold on, hold on me It's in my blood
Always got a hold on, hold on me
It's in my blood
