

## Phase Me Out

Vérité

watch it all play out  
reactions too familiar  
the way i act is similar  
to how i see it in my mind

say just what you mean  
cause love i don't believe in  
the days we spend are fleeting  
and passing by the time

stand up straighter with my back against the wall  
keep me still and wondering just why we falter

don't you want to stay here  
or do you want to phase me out  
don't you want to lay here  
or would you rather do without

eventually you'll crack  
and remember there's no need for  
siphoning some reason  
from a dissipating line we drew

stand up straighter with my back against the wall  
keep me still and wondering just why we falter

don't you want to stay here  
or do you want to phase me out  
don't you want to lay here  
or would you rather do without
