

Phase Me Out

Vérité

watch it all play out
reactions too familiar
the way i act is similar
to how i see it in my mind

say just what you mean
cause love i don't believe in
the days we spend are fleeting
and passing by the time

stand up straighter with my back against the wall
keep me still and wondering just why we falter

don't you want to stay here
or do you want to phase me out
don't you want to lay here
or would you rather do without

eventually you'll crack
and remember there's no need for
siphoning some reason
from a dissipating line we drew

stand up straighter with my back against the wall
keep me still and wondering just why we falter

don't you want to stay here
or do you want to phase me out
don't you want to lay here
or would you rather do without
