

# Wasteland

Vérité

It's like I'm living in a wasteland  
Of words I'm trying to say  
But they don't come out right  
Like I could be your friend  
If you had anything to offer me tonight

I want a heart unbreakable  
So I can feel it all

It's like I'm living in a wasteland  
Of words I'm trying to say  
But they don't come out right  
Like I could be your friend  
If you had anything to offer me tonight  
But I am just a fool  
Cause I could be in love if I really tried  
Holding onto something I can't see  
So you can comfort me tonight

I can feel disaster  
Falling on me after  
The sun comes up  
You say goodnight  
But I keep crawling over you for now  
Cause everything I feel is a waste of time  
Holding onto something I can't see  
Won't comfort me tonight

I want a heart unbreakable  
So I can feel it all.  
It's like I'm living in a wasteland  
Of words I'm trying to say  
But they don't come out right  
Like I could be your friend  
If you had anything to offer me tonight  
But I am just a fool  
Cause I could be in love if I really tried  
Holding onto something I can't see  
So you can comfort me tonight

I want a heart unbreakable  
I want a heart unbreakable  
I want a heart unbreakable  
So I can feel it all.

It's like I'm living in a wasteland  
Of words I'm trying to say  
But they don't come out right  
Like I could be your friend  
If you had anything to offer me tonight  
But I am just a fool  
Cause I could be in love if I really tried  
Holding onto something I can't see  
So you can comfort me tonight
