

Weekend

Vérité

You can drive your fast car
Through the village 'til you die
Or you could take another deep breathe swingin'
For the days I could watch you run
Through the white lighted streets
Where the houses stay the same
Where we could drink
'til we'd never remember our names

You can bring me to life
You can bring me to life

So we can hang our noose
Under stars bright
Ready to glow
And we can fall in love for the weekend
We're on the edge baby
Two hearts starting to slow
And we can fall in love for the weekend
Oh

We can dream in white hot
Color in ecstasy we'll fade
Into the silence of our
Dead night freezing
When the smoke cleared
I awoke here
Caught in the patterns of the mess
That we've been making
We can play pretend 'til it gets dark
And count the seconds until everything falls apart

You can bring me to life
You can bring me to life

So we can hang our noose
Under stars bright
Ready to glow
And we can fall in love for the weekend
We're on the edge baby
Two hearts starting to slow
And we can fall in love for the weekend
Oh

Cause we're the new kids
Waiting on the edge
And we're ready to go
And we could fall in love for the weekend
We're on the edge of a shotgun
Ready to blow
And we can fall in love for the weekend
Just give me one shot in my veins
And I'll be ready to love
So we can fall in love for the weekend? You know I'm trying too hard
But it isn't enough
So we could fall in love for the weekend
Oh

So we can hang our noose
Under stars bright
Ready to glow
And we can fall in love for the weekend
We're on the edge baby
Two hearts starting to slow
And we can fall in love for the weekend
Oh
Cause we're the new kids
Waiting on the edge
And we're ready to go
And we could fall in love for the weekend
We're on the edge of a shotgun
Ready to blow
And we can fall in love for the weekend
Oh
