

# The Astronomer

Vermillion Lies

Do you like heavenly bodies?  
lyrics  
the rings of saturn are so sexy  
and jupiter's got that red spot  
pluto and eris are just dwarves  
but they get me twice as hot

oh planet porn  
the solar system really turns me on  
i'm floating through your galaxy  
your milky way is all over me

i'd spread my legs for venus  
and i'd like to live on mars  
i'll take neptune or uranus  
or any of the countless stars

oh planet porn  
the solar system really turns me on  
i'm floating through your galaxy  
your milky way is all over me

and mercury's the hottest (objectively speaking)  
being closest to the sun  
and if that gets you off  
you know you're not the only one

oh planet porn  
the solar system really turns me on  
i'm floating through your galaxy  
your milky way is all over me
