

## For A Minute There

Vern Gosdin

Thought that you and I were forever  
Until tonight I never felt alone  
And though you never mentioned you were going  
I felt a chill go running through my bones.

Across the room in silent conversation  
I heard every word you didn't say  
Let's go to sleep pretend this never happened  
Tomorrow you won't feel so far away.

For a minute there a part of you was leaving  
I saw that far away look in your eyes  
For a minute there my heart almost stopped beating  
For a minute there I thought you said good by.

For a Minute there I felt my world was ending  
For a minute there I thought you said good by...
