

# Who You Gonna Blame It On This Time

Vern Gosdin

Oh, you say that it wasn't your fault  
The reason that you're late  
You had some good excuses  
And your alibis are great

You think by now you would have  
Used up all your lies  
Who are you gonna blame it on this time?

Get out in the open  
So I can plainly see  
You have never failed  
At making me believe

Oh, I can't wait to hear  
I like to see you shine  
So who are you gonna blame it on this time?

Oh, I want to believe you  
And I do every time  
It's what keeps us together  
And that's fine

So I can't wait to hear  
I like to see you shine  
So who are you gonna blame it on this time?

Oh, I want to believe you  
And I do every time  
It's what keeps us together  
And that's fine

So I can't wait to hear  
I like to see you shine  
So who are you gonna blame it on this time?  
So who are you gonna blame it on this time?
