

Do You Really Wanna know

Verona

You don't know how to say hello
Is that your way to let me know
I'm your fantasy
Too shy to look me in the eyes
How come you're telling other guys
You're so close to me

The way you talk
Your smile, your walk
So helpless
Let's get it on
Before I'm gone
Just confess

Do you really wanna know me
Own me
Don't waste no time
Do you really wanna know me
Show me
What's on your mind

Do you really wanna know
Do you really wanna know

Only the strongest can survive
You tell yourself from nine to five
That you got it all
Let's stop this game of hide and seek
'Cause you don't wanna be too weak
So break down the wall

The way you talk
Your smile, your walk
So helpless
Let's get it on
Before I'm gone
Just confess

Do you really wanna know me
Own me
Don't waste no time
Do you really wanna know me
Show me
What's on your mind

Do you really wanna know
Do you really wanna know

Do you really want me
Do you really want to
Show me
What's on your mind

Do you really wanna know me
Own me
Don't waste no time
Do you really wanna know me

Show me
What's on your mind

Do you really wanna know me
Own me
Don't waste no time
Do you really wanna know me
Show me
What's on your mind

Do you really wanna know
