

# I Can Feel

Verona

I can feel your body calling  
I can feel this is the night  
I can feel your body calling  
Just put it on me right

Chapter one - here you are  
Looking like superstar  
I can't take my eyes off you  
How can I get close to you

rap...

I can feel your body calling  
I can feel this is the night  
I can feel your body calling  
Just put it on me right

I can feel your body calling  
I can feel this is the night  
I can feel your body calling  
Just put it on me right

Chapter two - I'm in your zone  
For tonight I'll be your own  
Covergirl, will do you right  
If you take me home tonight

rap...

I can feel your body calling  
I can feel this is the night  
I can feel your body calling  
Just put it on me right

I can feel your body calling  
I can feel this is the night  
I can feel your body calling  
Just put it on me right
