

It's OK

Verona

Seems like you're ready to move on
So don't you leave me waiting here till dawn
And if you're ready, don't be scared
I'm gonna teach you how to share
Like a love millionaire

I feel your body heat
By simply looking at you
So shy, so sugar sweet
This kiss has been overdue

It's okay with me
Take your time
Baby, no need to rush
It's okay with me
As long as you can give me
Loving more than a crush

It's okay with me
Take your time
Baby, no need to rush
It's okay with me
As long as you can give me
Loving more than a crush

Boy, what's the holdup, let me know
Ain't gonna bite you, so come on, let's go
I'm right here waiting for your move
You better get into the groove
There is so much to prove

It's okay with me
Take your time
Baby, no need to rush
It's okay with me
As long as you can give me
Loving more than a crush

It's okay with me
Take your time
Baby, no need to rush
It's okay with me
As long as you can give me
Loving more than a crush

It's okay with me
Take your time
Baby, no need to rush
It's okay with me
As long as you can give me
Loving more than a crush

It's okay with me
Take your time
Baby, no need to rush
It's okay with me
As long as you can give me

Loving more than a crush
