

# Takin' Over

Verona

We're breaking up, ain't no doubt, we take over  
We're gonna dance, it's about to go down  
We own the night, will fight 'till it's over  
If you don't feel us, get outta her right now

We're breaking up, ain't no doubt, we take over  
We're gonna dance, it's about to go down  
We own the night, will fight 'till it's over  
If you don't feel us, get outta her right now

Can you feel the base  
Tearing down the place  
Can you feel we're taking over  
Can you feel the base  
Breaking into space  
We are taking over

This ain't a love song, this is revolution  
If you're not scared, put your hands in the sky  
It's not a joke, it's sound evolution  
If you don't feel us, get outta her right now

Can you feel the base  
Tearing down the place  
Can you feel we're taking over  
Can you feel the base  
Breaking into space  
We are taking over
