

# There's No Way Out

Verona

My heaven on Earth, my timeless devotion  
With you I can talk to the sun, to the moon, the ocean  
Take it from me, you know that I love you  
I'd walk to the edge of the world night and day to hold you

I feel alright, my mind's on you  
I feel I fell head over heels  
I feel alright just being your hook  
I feel it feels untruly real

I'm not being mad, I'm just being crazy  
Coz it feels like Christmas in June and you're right beside me  
Straight from my heart I keep falling for you  
I'd walk to the edge of the world night and day to hold you

I feel alright, my mind's on you  
I feel I fell head over heels  
I feel alright just being your hook  
I feel it feels untruly real

I feel alright  
I feel alright  
I feel alright just being your hook  
I feel it feels untruly real
