

Up to the Stars

Verona

Blurry view, dizzy mind
Just one thought of you makes me blind
Rainy days, sleepless night
When you're gone, my world falls apart

I feen for you
i'm lost in you
I'm into you
What will I do?

I'll take you up to the stars
Wherever they are
I'm Gonna find a way
I wanna be where you are
No matter how far
Love you through night and day
I'll take you up to the stars
Wherever they are
No one but me and you
Ain't nothing stoppin' us now
No slowin' down
Until you feel it too

One on one right on time
With each move I'm losing my mind
When we talk, words so sweet
'nough to make me blaze up in heat

I feen for you
i'm lost in you
I'm into you
What will I do?

I'll take you up to the stars
Wherever they are
I'm Gonna find a way
I wanna be where you are
No matter how far
Love you through night and day
I'll take you up to the stars
Wherever they are
No one but me and you
Ain't nothing stoppin' us now
No slowin' down
Until you feel it too

Can't be without you, I can't stay away
Got heaven night and day
Can't be without you, I can't stay away
That's all I need to say
