

Please believe me  
I can't go on without you  
Please don't leave me  
I can't get home without you

I can't go on feeling you sadly  
I can't go on if you won't come with me

Please don't leave me  
I can't get along without you  
Please believe me  
I can't go home without you

Nobody needs to know what we know  
Nobody needs to go where we go  
Nobody needs to know  
Please believe me

Nobody needs to know what we know  
Nobody needs to go where we go  
I can't go on my own

Please believe me  
Say you'll never leave me  
Please believe me
