Please believe me
I can't go on without you
Please don't leave me
I can't get home without you

I can't go on feeling you sadly
I can't go on if you won't come with me

Please don't leave me
I can't get along without you
Please believe me
I can't go home without you

Nobody needs to know what we know
Nobody needs to go where we go
Nobody needs to know
Please believe me

Nobody needs to know what we know
Nobody needs to go where we go
I can't go on my own

Please believe me
Say you'll never leave me
Please believe me
