

Believe

Versailles

Some days come closer now
Burn my eyes out
Some feelings I have to let go of to withstand
But then I catch up to my own hands
It's like we've woken up from a fable we don't understand

Reprise
Believe in me I'll take you down
Believe in me you'll crawl out
Believe in me I'll take you down
Believe in me you'll crawl out.

And I woke up not sure why
All I knew inside
And I woke up from my life
It's all been so new for you
So new
