

Blind Salvation

Verse

Thirsting for the absolute left you drunk on a quest for the truth.

A newfound sense of salvation, empty in the eyes, mind on vacation.

They got their ravenous claws in your skin, they know the power of infecting the youth.

Such a fine young boy. Join them where the water is black and you can make your own rules.

No wrath of god, just the wrath of man. A legacy of genocide and stolen lands in the name of "good books" that have been twisted for imperialistic plans. Ignore the dark history of slavery and misery. Turn out the lights and hide the current state.

You've been "saved" but you still wait: Arms open, heart open, God fearing. Still Nothing.
