

## Afterglow

## Vertical Horizon

I wasn't sleeping  
I wasn't dreaming  
I kept my head down  
I kept my head down

I wasn't laughing  
I think I was crashing  
'Cause I always fall down  
I always fall down

[Chorus:]

Now everything I've ever known  
Just fades into the afterglow  
This light surrounds you  
And your light pulls me through  
And even though the past is gone  
I've got you here  
I'm holding on  
Look up from below  
And stay with me here in the afterglow

I wasn't breathing  
My heart had stopped beating  
Frozen in time  
Frozen inside

[Chorus]

You saved me from this hiding place  
Where I waste away  
You turned this winter's night into  
A perfect summer's day

Now I'm believing  
The pain is receding  
You're like water to wine  
Water to wine
