

# I'm Not Running

Vertical Horizon

It's a miracle if you stop and think about it  
That we could fall in love at all  
The fallen wishes that led me to this moment  
Her echoing inside my head and I don't hear the call

'Cause I'm not running  
I'm not running  
Every storm just makes us stronger  
Coming through

I'm not running  
I'm not running  
There's no chance that I won't take  
To be with you

We could just give in and say we were outnumbered  
By all the reasons to let go  
But something sweet as this  
Is bigger than everything we're facing  
And I am gonna stand besides you  
Until at last you know

That I'm not running  
I'm not running  
Every storm just makes us stronger  
Coming through

I'm not running  
No not from nothing  
There's no chance that I won't take  
To be with you

And all the lies, and all the fears  
Wash down your cheek and disappear  
Here's to light, let the dark be gone

I'm not, I'm not  
I'm not running  
I'm not, I'm not  
I'm not running

That I'm not running  
I'm not running  
Every storm just makes us stronger  
Coming through

I'm not running  
No not from nothing  
There's no chance that I won't take  
To be with you

I'm not, I'm not  
I'm not running  
I'm not, I'm not  
I'm not running
