

It's Over

Vertical Horizon

I'm here, wide awake again
This fear is something I call a friend
Hello again
It's been a while since I saw you here
I don't remeber you saying goodbye

No,
It doesn't matter it's over
Here I've been waiting
All my life
All this time
It doesn't matter it's over
Here I've been waiting
All my life
All this time

Here we go, jump to the stars above
So low, why do I fall to love?
Hello my love
This voice never called your name
This boy would never be the same

No,
It don't matter it's over
Here I've been waiting
All my life
All this time
It don't matter it's over
Here I've been waiting
All my life
All this time

Don't let it end up this way
Don't spend another night afraid
Don't let it end up this way
Hey-yeah

Don't matter it's over
Here I've been waiting
All my life
All this time
Don't matter it's over
Here I've been waiting
All my life
All this time
All this time

I'm here, wide awake again
