Life in the City

Vertical Horizon

Cut it down go put it away Take an inside look on the outside Another day

Take time look at the sunshine Have mine it's better on you anyway

Nobody's perfect all the time But I know you And you know me And it's alright

I'm waking up gonna buy me some shoes
Take a long walk out of the hindsight start anew

Look around maybe buy a new topcoat Stop moping the rain's gonna rain through Rain through on you Yes it's true that

Nobody's sunny all the time
But I know you and you know me
And it's alright

And it's your life and it's my life It's our life in the city

Get a new place out in the hills
Plant a seed I'm in need of a break from the fire drill
Repaint where all the paint ain't
Get a clean slate and maybe we can buy a thrill
I'll foot that bill
Yes I will 'cause

Nobody's busy all the time But I know you And you know me And it's alright
