

One Day

Vertical Horizon

Sitting down to nobody
Waiting around to worry out a rhyme
We all need a rhyme
I get grace from falling down
I'm amazed each time I feel the light
Just a little light

Don't ever let me go
Don't ever let me stay
Don't let me stay too long

One heart beats
Another is gone
Take away the ones we love
It's so hard, we know, we know that
Desperately
We've gotta hold on
Every second feels too much
So long, alone
For one day
With love
Love

I've been stalled beside the road
I should've called but I don't have the time
I took a lotta time
I can't place the face I'm in
When I go, and where are you tonight
I just need tonight

Don't ever stay away
Don't ever let me go
Don't let me go alone

One heart beats
Another is gone
Take away the ones we love
It's so hard, we know, we know that
Desperately
We've gotta hold on
Every second feels too much
So long, alone
For one day
With love
Love
Love
Love

We can run away but
Why run away when
Everything we see is
All that we need yeah
We can run away but
Why run away when
All we really need is love

One heart beats

Another is gone
Take away the ones we love
It's so hard, we know, we know that
Desperately
We've gotta hold on
Every second feels too much
So long, alone
For one day
With love
Love
Love
Love
